

Festo Learning Experience

The Digital Learning Portal by Festo Didactic

FESTO

Customized Learning Experiences

Sharing expertise and knowledge with students is most educators' main objective. However, preparing comprehensive learning scenarios involves diligent lesson planning and intensive course material creation.

To help educators build industry aligned pedagogical content easier and quicker, we created Festo Learning Experience – the online portal for students and teachers to access and create customized learning experiences.

This unique online environment is based on an open community approach and features learning resources for many technical fields. All necessary tools are included to create engaging lessons while making the most out of your Festo Didactic hardware learning solutions.

Benefits for Teachers

- Receive ready to use, modular learning content for various fields of technical education
- Customize courses and easily create new ones based on learning nuggets
- Provide a motivating learning experience to your students through modern learning methods
- Support your students in learning groups and monitor their individual success

Benefits for Students

- Experience individual learning content related to your equipment with tasks you will face in your future job
- Enjoy learning with interactive and multimedia content corresponding to various learning preferences
- Progress in short periods of time using learning nuggets
- Learning flexibly on your mobile devices
- Easily access and get support from your teachers

Festo Learning Experience

The Digital Learning Portal by Festo Didactic

Benefits for Industry Clients

- Workforce available on-site through online learning
- Quick learning success with multimedia learning support
- Employees work online whenever it fits in their schedule
- Monitor your employees' learning progress
- Benefit from reliable IT security standards
- Receive customized learning paths specifically created for your needs
- High-quality standards of Festo learning resources and industry expertise

Topics Covered

- Electricity and Electronics
- Fluid Power
- Factory Automation
- Electric Power Technology
- Industrial Trades
- Industry 4.0
- STEM

Join us on our journey

In collaboration with dedicated customers, Festo experts continuously add more content and features to the portal.

Key Features

Individual Learning

Customize your learning content. Regroup existing learning nuggets and create new ones to design tailor-made new learning paths.

Learning Evaluation

Test your learners' knowledge and skills as they work on their learning paths to check their progress.

Equipment Management

Get the most out of your investment in equipment by receiving suggestions for corresponding learning content.

Competency Management

Find courses by required competencies and map the learning paths for students.

Connected Learning

Learn and practice in direct connection with our equipment to develop application-oriented competencies.

LX Creator

Create and edit learning paths and share your expertise with the community.

Mobile Learning

Learn anywhere and from any device with responsive design created for a user-friendly learning experience.

Micro Learning

Progress in short periods of time using learning nuggets.
